Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 5 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Tominaga et al (5,722,347). Tominaga et al show in the use of a first rail and second rail 2 running along the inside surface of the aquarium wall, an attachment means 3 for attaching the first and second rails 2 to an inside surface of the aquarium and a dock element 1 having sliding means 4 for permitting the docking element 1 to slide along the first and second rail 2, see fig. 2. The second rail 2 is considered to be attached to the first rail 2 by the docking element 1.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10-13, 16-20 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tominaga et al in view of Sklar (2,727,489). Tominaga et al do not show in the use of an attachment means shaped as a hook extending outside of the aquarium. Sklar shows a feeding station 10 supported along the inside surface of an

Art Unit: 3644

aquarium wall 11 having an attachment means in the shape of a hook 14 configured to hook on the top of the aquarium. With respect to claims 10 and 11, to use the hook of Sklar as an attachment means of the device Tominaga et al would have been obvious to one skilled in the art as a replacement of functional equivalents.

Allowable Subject Matter

Claims 1-3, 6, 8, 9, 15, 22, 23 and 26 are allowed.

Claims 14, 24 and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.
